Our Mission

Our Vision

Your Needs

We partner with group leaders to create a fun and intimate retreat experience where we embrace God, together.

We strive to provide opportunities for people to encounter the peace of God, the power of relationships, and the purpose of one's life.

Our entire facility has been designed to cater to your group's retreat needs. We take care of our property as if it were our home, because for a short time, it is home to you.

Ministry Partners

For the first time ever, our Ministry Partners have the unique opportunity to be a part of a legacy moment. We are in the midst of laying the foundations of an organization that will outlast the individual efforts of those involved and will continue to impact lives for Christ for generations to come.

As the wisdom of Solomon suggests, it is better to take this leap of faith together, and there are three ways that we are asking Ministry Partners to join us in support: financially, physically, and prayerfully.

If you are interested in becoming a ministry partner with us, please call us at 812-597-4455.

Our History

In 1940, the Hickory Hill Canning Factory occupied our 50-acre space within the woods. After its closing, a private residence was built in the 1970's and is now the Hilltop Lodge. In the mid 80s, Young Life purchased the residence and added the 'gymnasium' down the hill. At that point in time, the camp could only house 40 guests. In 1995, Walnut Hills purchased the camp from Young Life and expanded both the acreage and housing capacity. The camp went from 50 to 65 acres and 40 to 100 guests. In 2017, the Johnson family began managing the camp, and purchased the camp in March 2022. The camp has increased housing capacity once again. Their vision is to create a fun and intimate retreat experience where groups can embrace God, together.
