Prevent Abuse and Protect the Kids in Your Ministry

Training Event for You and Your Staff

We want our church pastors, staff, and volunteers to be equipped with the skills needed to end children being harmed in our ministries. We believe this training helps protect us and our churches. We want to be seen as a game changer in this area, protecting our students' safety now and long term. This training works, the expense is minimal, and there have been multiple examples of this training being effective.

After evaluating hundreds of child sexual abuse cases and identifying patterns encountered repeatedly, Gregory Love and Kimberlee Norris created preventative measures tailored to fit the needs of churches, camps and ministry programs. Their legal expertise and practical experience shapes the content of Sexual Abuse Awareness Training: The Foundation of an Effective Safety System.
